PROGRAM

HOW WE LEVELED UP
OUR GEN 0 NURSERY

MyFloraDNA

MORE THAN CLEAN PLANTS.

A DATA-DRIVEN APPROACH TO GENETIC QUALITY

CULTIVATION SOPS INCLUDED

Each cultivar comes with recommended Standard Operating Procedures for optimal results.

Powered by  **OLYZA**

PATHOGEN SCREENED + ENDOPHYTE PANEL

Full qPCR screening. Not just pathogens, we test for endophytes too.

COMPLETE BIOLOGICAL RESET

Our TC process's remove accumulated pests, bacteria, fungi, and pathogens, returning our cultivars to a sterile baseline.

RESTORED VIGOR + GENETIC POTENTIAL

Our Gen 0 Motherstock returns a plants fidelity, uniformity, and morphological consistency, allowing for increased yields, cannabinoid and terpene production.

GENOMIC ANALYSIS

Genomic analysis helps us detect a broader range of organisms, giving you a more complete picture of plant health and microbial activity

DNA FINGERPRINTED

Every cultivar is verified for genetic accuracy. You know exactly what you're growing
